

Check Ride Procedures

You can get a copy of the Document Checklist and other information that you will need for your checkride at <http://NJWG.CAP.GOV>

When you have all of the information on the "Form 5, 5G (glider) checkride Document Checklist", please contact your DO or their designee and tell them that you are ready for a checkride. They will go over your paperwork with you, regulations, procedures and whatever else you need to know to be a CAP pilot and/or Cadet O-pilot before they sign your CAPF 5 that you are ready for your checkride. Please have a copy of all of this and be familiar with all the regulations.

Next, contact a check pilot to schedule your Form 5 check ride. CAP instructor/mission check pilots must schedule their rides with an appropriate checkpilot examiner.

Pilots can contact the appropriate CAP check pilot from the list below to schedule their checkride. Please do not schedule a checkride with the same checkpilot twice in a row. Please let the checkpilot know if you want an Instrument checkout. Time needs to be allotted for these things.

BFR's cannot be part of the CAPF 5 checkride. If you need a BFR, please discuss this with the checkpilot when you schedule your checkride.

The U.S.A.F. will pay for one Form 5 per pilot per year and one Form 91 per pilot every 2 years, if the pilot is:

1. A mission pilot or,
2. A mission pilot in training and,
3. Funding is available

To have the Form 5 or Form 91 paid for, you must request approval from the NJWG DOV (Kurt Pricer). You will need the name of your check pilot and the date of your check ride.

Once the ride is completed, you will need to provide the following information to the NJWG DOV (within 24 hours):

1. Aircraft N number
2. Departure airport
3. Landing airport
4. Duration of flight
5. Departure time
6. Cost of fuel/oil
7. Flight Successful or Unsuccessful

All the pilots and aircrews in NJ appreciate these CFI's and Mission Check Pilots donating their time and the great job they do to help make NJ Wing skies safe.
